

MAXIMUM INSURANCE DISCOUNT AUTHORIZATION

You may qualify for an Insurance Premium Discount when your vehicle(s) equipped with a dealership installed GPS Vehicle Tracking & Recovery System. Many states require insurers to provide a discount, and a growing number of national carriers are offering discounts for GPS stolen vehicle recovery systems.

According to the National Association of Insurance Commissioners, eleven states: Illinois, Kentucky, Louisiana, Massachusetts, Minnesota, New Jersey, New Mexico, New York, Pennsylvania, Rhode Island, and Texas have regulations that require insurers to provide vehicle owners with discounts on the base rates for comprehensive insurance for vehicle tracking GPS devices. In the majority of other states, insurers may offer these discounts or are encouraged to offer them.

When you notify your auto insurance company, be sure to tell your agent that you have a dealership installed GPS stolen vehicle recovery plus family member safety device in your vehicle. Make sure they know there is a 24/7/365 toll free stolen vehicle recovery assistant that will assist in conjunction with the police to insure proper recovery of your stolen vehicle.

cut along dotted line

Dear Insurance Agent,

The installation of a (passive) new age technology GPS Vehicle Tracking & Recovery + Family Member Safety System has been integrated within my vehicle for full time monitoring. This GPS System Provides both E-mail and Text messages for Geofence, Speed Alerts, Low Battery, and a Pro-Active feature for notification of a Tow / Potential Theft Alert even when my vehicle(s) ignition is not engaged.

This GPS Vehicle Tracking & Recovery system qualifies me for the maximum discount mandated by law in some states and by insurance company's vehicle asset protection divisions underwriting guidelines in other.
